

The Healing Room

with Joseph Aldo, PhD

Welcome to the Healing Room, a place where we discuss all matters of holistic healing in regards to the body, mind and soul. This gathering is a place to explore the healing power of the mind, body and spirit as they relate to universal laws, spiritual principles and consciousness. These interactive conversations are designed to expand one's consciousness and release limiting programs, patterns and beliefs that lead to dis-ease.

Topics of discussion may include: the power of intuition, energy medicine vs orthodox medicine, the miracle paradigm, quantum physics, meditation and contemplation, bridging the conscious and subconscious mind, integrating the shadow and much more. There will also be opportunities for healing demonstrations with class participants.

When we come together as a community for the purpose of healing we have the capacity to heal at a greater speed at efficacy due to the field of energy created by open, heart-centered souls holding the intention for a return to wholeness. Join us on this day to experience a shift in consciousness that transcends the programs of the limited mind and accesses the wisdom of the infinite heart.
