

# SpiritTalk 2020

Bringing Mediumship into Clear Focus

**6-Week Course Starting February 12, 6:30 - 8:30pm**

Over six Wednesdays,  
you'll learn how to:

- Comfort grieving families with evidence of loved ones.
- More easily enter higher states of awareness.
- Experience Oneness with all.

Some are born Mediums. Most are taught.

The first law of thermodynamics states energy can't be created or destroyed -- it merely changes form. "Life" is an energy and doesn't just cease to exist when it's no longer in physical form; it merely vibrates at a higher frequency.

Over six classes, you will learn tools to raise your awareness and detect those higher frequencies. You will connect with people in spirit with confidence, accuracy and compassion. Science + Spirit align as you begin to access information from "the unified field," "the collective unconscious," or "God Consciousness." It's all the same.

The class is taught by **Happy Medium Jonna Rae Bartges**, who has been connecting with dead people since childhood. Her own death experience from a brain aneurysm 30 years ago enhanced her ability to interact with the spirit world.

**Early Bird Discount through February 1: \$99**

**After February 1: Tuition \$129**

**Pre-registration is required; Space is limited.**
